## CUPRA ATECA

Embrace a new way of living with the CUPRA Ateca VZx. Its powerful 221kW engine will set your spirit soaring as you chase the horizon. A combination of power and practicality, the 2.0-litre TSI engine can propel you from 0–100km/h in 4.9 seconds<sup>1</sup>. At the same time, its boot space of 485L can store large luggage items, and you can enjoy keyless entry and an easy-open tailgate. No need to choose between performance, styling and comfort, the CUPRA Ateca VZx provides a unique blend of performance, styling, comfort and unique design features.

\* The Start/Stop system is designed to reduce fuel consumption and CO<sub>2</sub> emissions. It achieves this by automatically switching off the engine while the vehicle is stationary and then starting it again automatically when the driver wants to drive off. There are certain operating conditions where the Start/Stop system is deactivated (e.g. during engine warm-up), please refer to the owner's manual for full operating information.

# Please note figures are sourced from overseas data where equipment levels by model variant may vary.

\*\* Fuel consumption figures according to ADR 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only.
